

We have selected some popular combinations to stock in depth for a range of fast reaction kits. For any orders placed on us for these kits up to 5 pm we offer a guarantee of despatch the next business day. In many cases this will mean receipt within 48 hours depending upon your location. Please note the pallet racking option is normally delivered on our own vehicles and may require scheduling – you will be advised of receipt date.

If you should require an exact delivery date please contact us at the address on the back of this catalogue.
